**玻**璃—与生产和生活须臾不可分的建筑材料。自问世以来，就以其良好的透明度和硬度而备受青睐，同时又以其无法克服的缺点—易碎而让人无可奈何.....

锦州天泉玻璃有限公司，引进新技术，依靠高科技，将传统玻璃经高技术处理，使其具备了装饰，抗撞击、防盗等新功能。彻底改变了玻璃在人们心中的固有观念！

**G**lass-the building material connects closely with the production and daily life since it came into being. It is famous for its good transparency and hardness, however, there are some disadvantages that can't be overcome, such as breakable and unsearchable. Ameriglass corporation introduce new technique and rely on high technology. Dealing with the traditional technics and make out many new functions, such as ornamentation antiseismic, guard against theft, etc. This thoroughly changes man's initial idea about glass.
